Additional comments:

As of April 2026, testing in all Harvard facilities will be conducted every 4 months rather than quarterly. Testing will also transition from exhaust dust to sentinel-free soiled bedding as caging transitions from Allentown to Innovive. This transition will occur over the spring/summer of 2026. *Helicobacter* spp. enzootically present in the colony: *H. ganmani*, *H. hepaticus*, *H. mastomyrinus*, *H. typhlonius*. *Spironucleus* found intermittently in 1410. Regular testing for this pod now includes MuCPV and *Lawsonia intracellularis*.
