

## Health Monitoring Report for Mice

Institution: Harvard University Faculty of Arts and Sciences

Date: 28 March 2023

### Microbiological Entity/Unit

Building: BRI

Room(s): POD 1; 1111, 1114, 1102

Genome Modification Facility

### Entity/Unit type (mark the correct type) :

Conventional

☒ Barrier

Isolator

Other

### Contact person (name, e-mail, phone)

Dr. Kathleen Pritchett-Corning, pritchettcorning@fas.harvard.edu, +1 617 384 6642

### Testing Results:

|                                                       |                |                                                |             | Most recent tests        |                          | Historical results       |           |
|-------------------------------------------------------|----------------|------------------------------------------------|-------------|--------------------------|--------------------------|--------------------------|-----------|
| Tested subject                                        |                |                                                |             |                          |                          | Collected over 18 months |           |
| Testing Laboratory                                    | Testing method | (sentinel, colony animal, environmental, etc.) | Date        | No. positives/No. tested | No. positives/No. tested | Testing frequency        |           |
| <b>Viruses :</b>                                      |                |                                                |             |                          |                          |                          |           |
| Ectromelia virus <sup>1</sup>                         | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| Hantaviruses                                          | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| K virus                                               |                |                                                |             | Not tested               |                          |                          |           |
| Lactate dehydrogenase elevating virus                 |                |                                                |             | Not tested               |                          |                          |           |
| Lymphocytic choriomeningitis virus <sup>1</sup>       | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| Mouse adenovirus (type 1) <sup>1</sup>                | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| Mouse adenovirus (type 2) <sup>1</sup>                | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| Mouse cytomegalovirus                                 |                |                                                |             | Not tested               |                          |                          |           |
| Mouse hepatitis virus <sup>1</sup>                    | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| Mouse norovirus <sup>1</sup>                          | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| Mouse rotavirus <sup>1</sup>                          | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| Mouse thymic virus                                    |                |                                                |             | Not tested               |                          |                          |           |
| Parvovirus <sup>1</sup>                               | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| - NS1                                                 |                |                                                |             | Not tested               |                          |                          |           |
| - MPV <sup>1</sup>                                    | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| - MVM <sup>1</sup>                                    | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| Polyoma virus                                         |                |                                                |             | Not tested               |                          |                          |           |
| Pneumonia virus of mice <sup>1</sup>                  | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| Reovirus type 3 <sup>1</sup>                          | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| Sendai virus <sup>1</sup>                             | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |
| Theiler's murine encephalomyelitis virus <sup>1</sup> | CRL            | PCR                                            | Environment | 28-Mar-23                | 0/14                     | 0/81                     | Quarterly |

### Bacteria & fungi:

|                                                                         |     |     |             |           |      |      |           |
|-------------------------------------------------------------------------|-----|-----|-------------|-----------|------|------|-----------|
| $\beta$ -hemolytic <i>Streptococcus</i> spp. (not group D) <sup>1</sup> | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Bordetella bronchiseptica</i>                                        | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Bordetella hinzii</i>                                                | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Campylobacter</i> spp.                                               | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| Cilia-associated respiratory bacillus                                   | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Citrobacter rodentium</i> <sup>1</sup>                               | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Clostridium piliforme</i> <sup>1</sup>                               | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Corynebacterium kutscheri</i>                                        | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Corynebacterium kutscheri</i> <sup>1</sup>                           | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Helicobacter</i> spp. <sup>1</sup>                                   | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Klebsiella oxytoca</i>                                               | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |

1: The 2014 FELASA recommendations include these agents.

\* Agents formerly known as *Pasteurella pneumotropica*, Heyl and Jawetz

## Health Monitoring Report for Mice

Institution: Harvard University Faculty of Arts and Sciences

Date: 28 March 2023

Microbiological Entity/Unit

Building: BRI

Room(s): POD 1; 1111, 1114, 1102

### Testing Results (continued):

| Testing Results (continued):                     |                |                                                |             | Most recent tests         |      | Historical results       |           |

### Parasites<sup>1</sup>:

#### Mites

|                             |     |     |             |           |      |      |           |
|-----------------------------|-----|-----|-------------|-----------|------|------|-----------|
| <i>Demodex musculi</i>      | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Myobia musculi</i>       | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Myocoptes musculinus</i> | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Radfordia affinis</i>    | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |

#### Pinworms

|                               |     |     |             |           |      |      |           |
|-------------------------------|-----|-----|-------------|-----------|------|------|-----------|
| <i>Aspiculuris tetraptera</i> | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Syphacia oblevata</i>      | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |

#### Protozoan

|                             |     |     |             |           |      |      |           |
|-----------------------------|-----|-----|-------------|-----------|------|------|-----------|
| <i>Cryptosporidium</i> spp. | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Entamoeba muris</i>      | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Giardia muris</i>        | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Spironucleus muris</i>   | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |
| <i>Trichomonas muris</i>    | CRL | PCR | Environment | 28-Mar-23 | 0/14 | 0/81 | Quarterly |

Additional agents for which testing has been performed:

Pathology:

### Additional comments:

Please contact the facility for further information on opening and closing of rooms in this pod.

1: The 2014 FELASA recommendations include these agents.

\* Agents formerly known as *Pasteurella pneumotropica*, Heyl and Jawetz
